25X1 DATE OF INFO.

SUPPLEMENT TO REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. In mid-August 3,000 Sea Police were moved to the East German isps of K hlungsborn. Spa guests were evacuated from the area.
2. A People's Police training camp which will house about 12,000 men is under construction between Forgelow and Eggerin. Laborers from DDR building unions (Bauunionen) are being sent to the area to construct barracks. At present an undetermined number of People's Police are housed in tents in the area.
3. Airfield Litten, 5 km. northeast of Bautzen, has been re-surveyed. From 1937 to 1945 the field was used for training purposes by the G rlitz air school and was destroyed in 1945 prior to the arrival of the Russians. The field covers approximately 120 hectares. On the north, the field is bounded by the Niederaine-Purschwitz road; on the south, by the Bautzen-Weissenberg highway; on the east, by the Litten-Neupurschwitz road; and, on the west, by the area with Baschwitz road. In 1948 the field was leveled. At present it is used by the Russians as an emergency landing field. In mid-July a survey detachment from Dresden surveyed the field (Postvermessung) for the purpose of expanding it eastward. The field is to be enlarged to an area of 3.6 square kilometers - 3 kilometers long and 1.2 kilometers wide. The field is to be covered with steel landing mats.
4. The Guben-Cottbus-Fallenberg railroad line, which, after dismantling, had only a single track, is now being double-tracked. Double-tracking is to be completed this year.
5. During August and September 3,000 masons were recruited in Land Neuchlenburg for work on Russian construction projects on the island of R hren. It is rumored that the masons are to be employed in the building of submarine bunkers.
